Re: Resident Vaccination Date

We are excited to share with you the great news that on Wednesday, January 20th, 2021 all residents who have consented to receive the COVID-19 vaccine will be receiving the Moderna COVID-19 Vaccine on site. Our team has worked tirelessly to ensure our residents are comfortable through out the vaccination process. Along with our RN vaccination team, we will be joined by an expert immunization team who will assist in the administration of the vaccine to each resident.

Please rest assured, all current safety protocols and restrictions will remain in place as directed by Public Health. We will continue to forge ahead in our efforts to eradicate this virus from our province, as such each resident will receive their second dose in 28 days.

All Loch Lomond Villa staff thank you for your support and patience as we proceed through these challenging times. We are pleased to have been able to work so closely with Public Health to ensure our Loch Lomond Villa resident's safety is a top priority for our province.
