Re.: COVID Update

### Essential Care Partner Program

I would like to thank all our Essential Care Partners who participated in our COVID Sentinel testing clinic on February 10<sup>th</sup>. **Your next COVID testing clinic is scheduled at Loch Lomond Villa for this Thursday, February 25th from 12 noon to 6 pm.** You will not require a set appointment time. We are asking you to arrive when it is convenient for you between 12:00 noon and 6:00 p.m. Please enter through the Wellness Centre's outside door where you will be met by a staff member who will complete the necessary screening of each ECP.

**I am sorry if I have confused our Sentinel Testing process in my update yesterday. ECP visits will continue uninterrupted between your sentinel test and receiving your results from Public Health. ECP can continue to visit as long as their COVID results are negative.**

ECPs will continue to be required to be actively screened upon entry to the Home and will be asked to report their COVID test results. We thank you for your cooperation and understanding that these safety measures are being taken as an enhanced precaution for our Villa community. **All ECPs will be required to be tested every 2 weeks as long as they have no COVID symptoms.**

Thank you for your patience.

Cindy
